

18 & 22 kW

POWERPROTECT.
Standby Generators

POWERFUL. RELIABLE. UNMATCHED.

PowerProtect™ 18kW¹ & 22kW¹ Standby Generators

More power for your money.

Performance meets value. Briggs & Stratton® PowerProtect 18kW & 22kW Home Standby Generators feature our NGMax™ technology providing more power on natural gas than the competitors. And with the longest and most comprehensive standard warranty² in the industry, you can rest assured that your generator will provide years of worry-free performance and protection from power interruptions.

Shield yourself from power outages and the expense of outage-related damages by harnessing the reliability of a PowerProtect generator. Elevate the value of your home and your everyday life with the unparalleled peace of mind it brings.

Welcome to the future
of home backup
power solutions.

BRIGGS & STRATTON
ENERGY SOLUTIONS

Engineered with
NGMax™

for superior power and performance

When choosing a standby generator, check the specifications closely. **Only Briggs & Stratton PowerProtect generators feature NGMax™ technology, delivering up to 12% more power on natural gas than the competition.** For homes with natural gas, Briggs & Stratton is the ideal choice.

POWERPROTECT.

Standby Generators

Highest Rated Power Output on Natural Gas³

Engineered with NGMax for superior power and performance with convenient hookups for both liquid propane and natural gas.

Corrosion Protection

Reinforced, corrosion-resistant aluminum enclosures and bases with Dura-Zen™ coating for a long-lasting attractive appearance.

Vanguard® Commercial-Grade Engine

Designed for reliable, continuous performance—from the engine experts at Briggs & Stratton.

Eco-Cise™ Weekly Test Mode

Our short 16-second weekly test mode ensures your generator is in top operating condition while reducing noise and fuel consumption.

Most Comprehensive Warranty in the Industry²

No out of pocket costs; labor, parts, service all included. That's up to a \$849 value!

Superior Motor Starting

Best motor starting in the industry³ to ensure smooth operation of your large appliances during startup. More power³ than the competition.

Flexible Installation & Maintenance

Approved for installation as close as 18" to a building⁴ with easy toolless panel removal for serviceability and maintenance.

Suitable for Off-Grid use or Demand Response Programs

Certified for non-emergency use, partner with your utility company's demand response program to receive incentives for helping reduce the overall load on the power grid.

In-House Call Support

Enjoy direct access to our US-based Briggs & Stratton energy experts whenever you need them.

Better Performance and Value than the Competition
